*This updated edition covers only five years to allow more detailed instruction and features individual indexes for easy reference of each make and model. Includes nearly 3,000 drawings and photographs and thousands of tables and specifications. Excerpt from A Manual of Church History, Vol. 1: Ancient and Medieval Church History (to A. D. 1517) While the work has grown out of the author's own needs and experiences as a teacher, and is primarily intended as a text-book for theological seminaries and universities, he believes that it is equally adapted to the requirements of ministers of the gospel and of intelligent laymen throughout our great Baptist constituency. As he has conscientiously striven to record the facts as he has found them, without distorting them in the slightest degree in favor of any particular view of history, or any peculiar tenets of his denomination, he sees no reason why the work should not be acceptable and useful to members of other denominations as well as to those of his own. The recognition given to the author's fair-mindedness and freedom from partisanship by leading scholars of other denominations who have reviewed his earlier work induces the hope that this also will find a large number of sympathetic readers in the various bodies of evangelical Christians. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of*

imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works. Excerpt from *A Manual for Guardians and Trustees of Minors, Insane Persons, Imbeciles, Idiots, Drunkards, and for Guardians Ad Litem, Resident and Non-Resident, Affected by the Laws of Ohio To prepare such a work on the subject of guardianship in Ohio, with suitable forms, practical suggestions, index, etc.*, has been the aim of the writer since this volume was begun and announced. For this purpose, it has been necessary to examine, with care, the standard works on Trusts, Trustees, Domestic Relations, and other subjects in which guardianship is considered directly or indirectly, as well as a great many cases decided by the courts of our different states and of England, and to glean, condense, and arrange from these authorities such matter as would likely be most useful, and yet not to make the book a large or expensive one. The time devoted to it being chiefly outside of usual office hours, its progress was not as rapid as was hoped at first; and when almost ready for the press. It, with considerable other manuscript, was totally destroyed by fire. Its data had, therefore, to be again all collected as at first, and its writing done a second time. These are the causes of its delay. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. This latest edition of the bestselling *Auto Repair Manual* covers more than 1,900 models of domestic cars from 1982-1988 and includes more than 55,000 essential service specifications and repair facts as well as 2,500 diagrams, cutaways, and quick-check spec charts. Illustrated. Excerpt from *A Manual of Aesopic Fable Literature, Vol. 1: A First Book of Reference for the Period Ending A. D. 1500* Fable Literature, taking the term in its most general sense, may be said to include all forms of animal tales in which 'a moral purpose is evident. Such tales appear to have existed at all times and among all peoples, and the attempt to trace mutual relations between them in their oral form appears to be a well-nigh hopeless task. It is only when they definitely appear as literature and are consigned to writing that tangible results in this direction are attainable to the modern scholar.
