The classic, bestselling book on the psychology of racism -- now fully revised and updated Walk into any racially mixed high school and you will see Black, White, and Latino youth clustered in their own groups. Is this self-segregation a problem to address or a coping strategy? Beverly Daniel Tatum, a renowned authority on the psychology of racism, argues that straight talk about our racial identities is essential if we are serious about enabling communication across racial and ethnic divides. These topics have only become more urgent as the national conversation about race is increasingly acrimonious. This fully revised edition is essential reading for anyone seeking to understand the dynamics of race in America. The Challenge Built to Last, the defining management

study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA of an enterprise from the very beginning. But what about the company that is not born with great DNA? How can good companies, mediocre companies, even bad companies achieve enduring greatness? The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5 Leaders: The research team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept

(Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results. Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. "Some of the key concepts discerned in the study," comments Jim Collins, "fly in the face of our modern business culture and will, quite frankly, upset some people." Perhaps, but who can afford to ignore these findings? This Discussion Guide for A House Divided will help teachers and students discuss the chapters in A House Divided. Each chapter contains learning objectives, additional content, suggested activities, and discussion questions. A Best Book of the Year: The Washington Post • Chicago Tribune • NPR • Vogue • Elle • Real Simple • InStyle • Good Housekeeping • Parade • Slate • Vox • Kirkus Reviews • Library Journal • BookPage Longlisted for the 2020 Booker Prize An Instant New York Times Bestseller A Reese's Book Club Pick "The most provocative page-turner of the year." --Entertainment Weekly "I urge you to read Such a Fun Age." --NPR A striking and surprising debut novel from an exhilarating new voice, Such a Fun Age is a page-turning and big-hearted story about race and privilege, set around a young black babysitter, her well-intentioned employer, and a surprising connection that threatens to undo them both. Alix Chamberlain is a woman who gets what she wants and has made a living, with her confidence-driven brand, showing other women how to do the same. So she is shocked when her babysitter, Emira Tucker, is confronted while watching the Chamberlains' toddler one night, walking the aisles of their local high-end supermarket. The store's security guard, seeing a young black woman out late

with a white child, accuses Emira of kidnapping two-year-old Briar. A small crowd gathers, a bystander films everything, and Emira is furious and humiliated. Alix resolves to make things right. But Emira herself is aimless, broke, and wary of Alix's desire to help. At twenty-five, she is about to lose her health insurance and has no idea what to do with her life. When the video of Emira unearths someone from Alix's past, both women find themselves on a crash course that will upend everything they think they know about themselves, and each other. With empathy and piercing social commentary, *Such a Fun Age* explores the stickiness of transactional relationships, what it means to make someone "family," and the complicated reality of being a grown up. It is a searing debut for our times. In my many years of attending Bible study, I have found that many who attend barely grow beyond the level of being fed the word of God. Many are stocked in the level of milk without the capacity to handle the solid word of God. The aptitude and zeal to understand and rightly share the word of God is absent in the greater percentage of church attendees today. Every good shepherd desire that their flocks grow in their spiritual muscle and be able to stand anywhere and anytime on their faith feet without being tossed to and fro with every wind of doctrine. However, due to various environmental and organizational challenges, a small group Bible study setting may be lacking in many churches. The members may attend worship services on Sunday and other times, and listen to the pastor's sermon day after day, but never have the opportunity to contribute their God-given ideas or ask questions that could strengthen their courage to share their faith with understanding. This book is designed to challenge believers in reading a passage of the scripture and equip them with spiritual-warfare weapon in memory verse during each Bible study session. The individual will have the opportunity to learn and discuss the weekly topic and questions that follow

every introduction to the topic. The study guide is simply arranged to enable any believer or group of believers and families to use in any Bible study group setting. The study guide discusses various topics with supporting scriptural references to equip participants with practical knowledge and applications to their daily Christian living. Bible Study Guide for Churches, Small House Fellowships, and Discussion Groups is a must-have handbook for pastors, leaders of various Christian fellowship groups, and believers that will love to grow in their Christian walk. WINNER OF THE 2021 PULITZER PRIZE FOR FICTION NEW YORK TIMES BESTSELLER WASHINGTON POST, AMAZON, NPR, CBS SUNDAY MORNING, KIRKUS, CHICAGO PUBLIC LIBRARY, AND GOOD HOUSEKEEPING BEST BOOK OF 2020 Based on the extraordinary life of National Book Award-winning author Louise Erdrich's grandfather who worked as a night watchman and carried the fight against Native dispossession from rural North Dakota all the way to Washington, D.C., this powerful novel explores themes of love and death with lightness and gravity and unfolds with the elegant prose, sly humor, and depth of feeling of a master craftsman. Thomas Wazhashk is the night watchman at the jewel bearing plant, the first factory located near the Turtle Mountain Reservation in rural North Dakota. He is also a Chippewa Council member who is trying to understand the consequences of a new "emancipation" bill on its way to the floor of the United States Congress. It is 1953 and he and the other council members know the bill isn't about freedom; Congress is fed up with Indians. The bill is a "termination" that threatens the rights of Native Americans to their land and their very identity. How can the government abandon treaties made in good faith with Native Americans "for as long as the grasses shall grow, and the rivers run"? Since graduating high school, Pixie Paranteau has insisted that everyone call her Patrice. Unlike most of the girls on the reservation, Patrice, the class valedictorian, has no desire to wear herself down with a husband and kids. She makes jewel bearings at the plant, a job that barely pays her enough to support her mother and brother. Patrice's shameful alcoholic father returns home sporadically to terrorize his wife and children and bully her for money. But Patrice needs every penny to follow her beloved older sister, Vera, who moved to the big city of Minneapolis. Vera may have disappeared; she hasn't been in touch in months, and is rumored to have had a baby.

Determined to find Vera and her child, Patrice makes a fateful trip to Minnesota that introduces her to unexpected forms of exploitation and violence, and endangers her life. Thomas and Patrice live in this impoverished reservation community along with young Chippewa boxer Wood Mountain and his mother Juggie Blue, her niece and Patrice's best friend Valentine, and Stack Barnes, the white high school math teacher and boxing coach who is hopelessly in love with Patrice. In *The Night Watchman*, Louise Erdrich creates a fictional world populated with memorable characters who are forced to grapple with the worst and best impulses of human nature. Illuminating the loves and lives, the desires and ambitions of these characters with compassion, wit, and intelligence, *The Night Watchman* is a majestic work of fiction from this revered cultural treasure. Experience peace in the presence of the Savior who is closer than you can imagine with the *Jesus Calling® Discussion Guide for Families More for Women Only!* What's going on in a man's mind? You don't have to scratch your head any longer. After Shaunti Feldhahn's *For Women Only: What You Need to Know About the Inner Lives of Men* broached the subject, women everywhere responded with an overwhelming desire to dig deeper. Now this all-new discussion guide will help you and your friends explore the complex terrain beneath a man's confident exterior. Personal stories, fascinating case studies, and pointed questions will launch the conversations you need to open your eyes to what the man in your life—a boyfriend, brother, husband, or son—is really thinking and feeling. Men want to be understood, but they're afraid to "freak out" the women they love by confessing what is happening inside their heads. For women who really do want to understand, this group or one-on-one discussion guide is a must for helping you apply all those "ah ha" revelations to your relationships with the men in your life! This newly expanded study guide will help you answer

that question. Discussion questions, personal stories, and situational case studies will equip you to apply truths from the book to the relationships in your life. Additional content includes:

Ideal for book clubs, small groups, or one-on-one dialogue with the man in your life, this is an invaluable resource and companion to the acclaimed book. *Story Behind the Book* About five minutes after *For Women Only* hit the shelves, women started talking about it in small groups, book clubs, and coffee houses—and with their men. And about five days after that, Shaunti started getting e-mails saying, “We could really use something to help us work through these subjects.” *For Women Only* has opened the eyes of women to things they never understood about men before. Now, the *For Women Only Discussion Guide* will help them talk through and apply those truths to their lives. Is there any moment more wonderful than one spent in a really good discussion around the books we read and love? Ideas bounce off our family and friends, and we sometimes learn we saw things that others missed and that they made discoveries about the meaning of the story we overlooked. David Mains, one of the authors of the *Tales of the Kingdom Trilogy*, has taken the time to design 36 sets of discussion questions, one set for each story of the three trilogies. Each book contains exactly 12 stories. Make sure you challenge your family (or that they challenge you) with the rich and deeper meaning of each tale. You see, these are more than just great stories, beloved by many. They are based on universal truths children as well as adults long to know. They deal with common human longings? These questions were designed to make sure you don't miss those deeper meanings. *To the Kingdom!* **NEW YORK TIMES BESTSELLER** • The author of *The Talent Code* unlocks the secrets of highly successful groups

bestselling author of *Option B*, *Originals*, and *Give and Take* “If you want to understand how successful groups work—the signals they transmit, the language they speak, the cues that foster creativity—you won’t find a more essential guide than *The Culture Code*.”—Charles Duhigg, *New York Times* bestselling author of *The Power of Habit* and *Smarter Faster Better* “*The Leader’s Bookshelf*” identifies the “Top 50” books that can help anyone become a better leader. The works selected were based on hundreds of interviews with the most senior active and retired four-star U.S. military leaders who identified books from which they gained the special insights which helped propel them to success in the most demanding leadership challenges. Each of those fifty works -- novels, memoirs, biographies, autobiographies, leadership works – are concisely summarized and the key leadership lessons extracted and presented. Admiral Jim Stavridis and his co-author, R. Manning Ancell, have been surveying very senior military leaders for the past several years regarding their reading habits and favorite books. They have spoken to over 200 four-star officers, including those both currently on active duty and retired. Each of those admirals and generals was asked for a list of books that strongly influenced their leadership skills. Stavridis and Mancell then collated the data and analyzed which books were mentioned most frequently and which ones were most compelling in the leadership lessons offered the reader. The survey, while not scientific, was quite comprehensive. From it, Stavridis and Ancell built a powerful set of recommended readings. Whether individuals work their way through the entire top 50 list and read each book cover to cover, or read the summaries provided in “*The Leader’s Bookshelf*” to determine which appeal to them most – this book will provide a roadmap to better leadership. “*The Leader’s Bookshelf*” highlights the value of reading for leaders in a philosophical and practical sense, provides advice on how to build an extensive

library, lists other books worth reading to improve leadership skills, and analyzes how leaders use what they read to achieve their goals. “The Leader’s Bookshelf” is a book for anyone who wants to improve their ability to lead -- whether in their family life, their professional endeavors, or within our society and civic organizations. #1 NEW YORK TIMES, WALL STREET JOURNAL, AND BOSTON GLOBE BESTSELLER • One of the most acclaimed books of our time: an unforgettable memoir about a young woman who, kept out of school, leaves her survivalist family and goes on to earn a PhD from Cambridge University

“Extraordinary . . . an act of courage and self-invention.”—The New York Times NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW • ONE OF PRESIDENT BARACK OBAMA’S FAVORITE BOOKS OF THE YEAR • BILL GATES’S HOLIDAY READING LIST • FINALIST: National Book Critics Circle’s Award In Autobiography and John Leonard Prize For Best First Book • PEN/Jean Stein Book Award • Los Angeles Times Book Prize

Born to survivalists in the mountains of Idaho, Tara Westover was seventeen the first time she set foot in a classroom. Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara’s older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she’d traveled too far, if there was still a way home. “Beautiful and propulsive . . . Despite the singularity of [Westover’s] childhood, the questions her book poses are universal: How much of ourselves should we give to those we love? And how much must we betray them to grow up?”—Vogue

He and his wife Elizabeth are expecting their second child, and if her parents on Striver's Row don't approve of him or their cramped apartment across from the subway tracks, it's still home. Few people know he descends from a line of uptown hoods and crooks, and that his façade of normalcy has more than a few cracks in it. Cracks that are getting bigger all the time. Cash is tight, especially with all those installment-plan sofas, so if his cousin Freddie occasionally drops off the odd ring or necklace, Ray doesn't ask where it comes from. He knows a discreet jeweler downtown who doesn't ask questions, either. Then Freddie falls in with a crew who plan to rob the Hotel Theresa—the “Waldorf of Harlem”—and volunteers Ray's services as the fence. The heist doesn't go as planned; they rarely do. Now Ray has a new clientele, one made up of shady cops, vicious local gangsters, two-bit pornographers, and other assorted Harlem lowlifes. Thus begins the internal tussle between Ray the striver and Ray the crook. As Ray navigates this double life, he begins to see who actually pulls the strings in

Harlem. Can Ray avoid getting killed, save his cousin, and grab his share of the big score, all while maintaining his reputation as the go-to source for all your quality home furniture needs? Harlem Shuffle's ingenious story plays out in a beautifully recreated New York City of the early 1960s. It's a family saga masquerading as a crime novel, a hilarious morality play, a social novel about race and power, and ultimately a love letter to Harlem. But mostly, it's a joy to read, another dazzling novel from the Pulitzer Prize and National Book Award-winning Colson Whitehead. **NEW YORK TIMES BESTSELLER • LONGLISTED FOR THE NATIONAL BOOK AWARD •** One of today's most insightful and influential thinkers offers a powerful exploration of inequality and the lesson that generations of Americans have failed to learn: Racism has a cost for everyone—not just for people of color. **WINNER OF THE PORCHLIGHT BUSINESS BOOK AWARD • ONE OF THE BEST BOOKS OF THE YEAR:** Time, The Washington Post, St. Louis Post-Dispatch, Ms. magazine, BookRiot, Library Journal “This is the book I’ve been waiting for.”—Ibram X. Kendi, #1 New York Times bestselling author of How to Be an Antiracist Look for the author’s new podcast, The Sum of Us, based on this book!

Heather McGhee’s specialty is the American economy—and the mystery of why it so often fails the American public. From the financial crisis of 2008 to rising student debt to collapsing public infrastructure, she found a root problem: racism in our politics and policymaking. But not just in the most obvious indignities for people of color. Racism has costs for white people, too. It is the common denominator of our most vexing public problems, the core dysfunction of our democracy and constitutive of the spiritual and moral crises that grip us all. But how did this happen? And is there a way out? McGhee embarks on a deeply personal journey across the country from Maine to Mississippi to California, tallying what we lose when we buy into the zero-sum paradigm—the idea that

progress for some of us must come at the expense of others. Along the way, she meets white people who confide in her about losing their homes, their dreams, and their shot at better jobs to the toxic mix of American racism and greed. This is the story of how public goods in this country—from parks and pools to functioning schools—have become private luxuries; of how unions collapsed, wages stagnated, and inequality increased; and of how this country, unique among the world's advanced economies, has thwarted universal healthcare. But in unlikely places of worship and work, McGhee finds proof of what she calls the Solidarity Dividend: the benefits we gain when people come together across race to accomplish what we simply can't do on our own. *The Sum of Us* is not only a brilliant analysis of how we arrived here but also a heartfelt message, delivered with startling empathy, from a black woman to a multiracial America. It leaves us with a new vision for a future in which we finally realize that life can be more than a zero-sum game.

This book study is the perfect guide to maintaining all your learning from the book, "Inspired Writers." Guided note-taking pages are provided for chapters 2-19. These note-taking pages will help you pull the most important information from each chapter. Also included is space for teachers to create a teaching plan of action after each chapter. This will help take all the learning and apply it in a practical way. Group discussion questions are provided for each chapter as well. Have fun reading, "Inspired Writers" with friends and chatting about all the learning in a book club! This book is written for all university and college teachers interested in experimenting with discussion methods in their classrooms. *Discussion as a Way of Teaching* is a book full of ideas, techniques, and usable suggestions on:

- \* How to prepare students and teachers to participate in discussion
- \* How to get discussions started
- \* How to keep discussions going
- \* How to

ensure that teachers' and students' voices are kept in some sort of balance. It considers the influence of factors of race, class and gender on discussion groups and argues that teachers need to intervene to prevent patterns of inequity present in the wider society automatically reproducing themselves inside the discussion-based classroom. It also grounds the evaluation of discussions in the multiple subjectivities of students' perceptions. An invaluable and helpful resource for university and college teachers who use, or are thinking of using, discussion approaches. #1 New York Times Bestseller "THIS. This is the right book for right now. Yes, learning requires focus. But, unlearning and relearning requires much more—it requires choosing courage over comfort. In *Think Again*, Adam Grant weaves together research and storytelling to help us build the intellectual and emotional muscle we need to stay curious enough about the world to actually change it. I've never felt so hopeful about what I don't know." —Brené Brown, Ph.D., #1 New York Times bestselling author of *Dare to Lead* The bestselling author of *Give and Take* and *Originals* examines the critical art of rethinking: learning to question your opinions and open other people's minds, which can position you for excellence at work and wisdom in life Intelligence is usually seen as the ability to think and learn, but in a rapidly changing world, there's another set of cognitive skills that might matter more: the ability to rethink and unlearn. In our daily lives, too many of us favor the comfort of conviction over the discomfort of doubt. We listen to opinions that make us feel good, instead of ideas that make us think hard. We see disagreement as a threat to our egos, rather than an opportunity to learn. We surround ourselves with people who agree with our conclusions, when we should be gravitating toward those who challenge our thought process. The result is that our beliefs get brittle long before our bones. We think too much like preachers defending our sacred beliefs, prosecutors proving the other side

wrong, and politicians campaigning for approval--and too little like scientists searching for truth. Intelligence is no cure, and it can even be a curse: being good at thinking can make us worse at rethinking. The brighter we are, the blinder to our own limitations we can become. Organizational psychologist Adam Grant is an expert on opening other people's minds--and our own. As Wharton's top-rated professor and the bestselling author of *Originals* and *Give and Take*, he makes it one of his guiding principles to argue like he's right but listen like he's wrong. With bold ideas and rigorous evidence, he investigates how we can embrace the joy of being wrong, bring nuance to charged conversations, and build schools, workplaces, and communities of lifelong learners. You'll learn how an international debate champion wins arguments, a Black musician persuades white supremacists to abandon hate, a vaccine whisperer convinces concerned parents to immunize their children, and Adam has coaxed Yankees fans to root for the Red Sox. *Think Again* reveals that we don't have to believe everything we think or internalize everything we feel. It's an invitation to let go of views that are no longer serving us well and prize mental flexibility over foolish consistency. If knowledge is power, knowing what we don't know is wisdom. The Corps does two things for America: they make Marines and they win the nation's battles. The ability to successfully accomplish the latter depends on how well the former is done. The discussion guide for the novel, *Wonder Clearing*, comes at a critical moment for churches and nations. Both churches and nations are suffering through not only a terrible pandemic threatening physical health but also a pandemic of division that threatens the heart of our churches and the soul of civic society. Small groups using the discussion guide will focus on issues pertinent to contemporary America including racism, sexual orientation, and sexual exploitation of women and children. These issues play out in our world in religion, culture, and politics. Online or in-person discussion groups will easily apply the questions, Scriptures, and discussions to their own situations. Current social issues in both Catholic and Protestant churches echo many of the themes of the book. Political issues including immigration, civil rights, and discrimination parallel the experiences of Rob and Alphonso in the Steepleton of their youth. But the appeal of discussing *Wonder*

Clearing will be far more than pertinence of the issues and the reality of current prejudices. Instead, discussing the experience of the characters will offer participants an alternative way of living in a divisive religious and political world. George Takei has captured hearts and minds worldwide with his magnetic performances, sharp wit, and outspoken commitment to equal rights. But long before he braved new frontiers in STAR TREK, he woke up as a four-year-old boy to find his own birth country at war with his father's -- and their entire family forced from their home into an uncertain future. In 1942, at the order of President Franklin D. Roosevelt, every person of Japanese descent on the west coast was rounded up and shipped to one of ten "relocation centers," hundreds or thousands of miles from home, where they would be held for years under armed guard. THEY CALLED US ENEMY is Takei's firsthand account of those years behind barbed wire, the terrors and small joys of childhood in the shadow of legalized racism, his mother's hard choices, his father's tested faith in democracy, and the way those experiences planted the seeds for his astonishing future. What does it mean to be American? Who gets to decide? George Takei joins cowriters Justin Eisinger & Steven Scott and artist Harmony Becker for the journey of a lifetime. One teenager in a skirt. One teenager with a lighter. One moment that changes both of their lives forever. If it weren't for the 57 bus, Sasha and Richard never would have met. Both were high school students from Oakland, California, one of the most diverse cities in the country, but they inhabited different worlds. Sasha, a white teen, lived in the middle-class foothills and attended a small private school. Richard, a black

teen, lived in the crime-plagued flatlands and attended a large public one. Each day, their paths overlapped for a mere eight minutes. But one afternoon on the bus ride home from school, a single reckless act left Sasha severely burned, and Richard charged with two hate crimes and facing life imprisonment. The 57 Bus is Dashka Slater's true account of the case that garnered international attention and thrust both teenagers into the spotlight. Why do so many world-changing insights come from people with little or no related experience? Charles Darwin was a geologist when he proposed the theory of evolution. And it was an astronomer who finally explained what happened to the dinosaurs. Frans Johansson's *The Medici Effect* shows how breakthrough ideas most often occur when we bring concepts from one field into a new, unfamiliar territory and offers examples of how we can turn the ideas we discover into path-breaking innovations. Clayton M. Christensen, bestselling author of *The Innovator's Dilemma*, has described *The Medici Effect* as "one of the most insightful books about managing innovation I have ever read. Its assertion that breakthrough principles of creativity occur at novel intersections is an enduring principle of creativity that should guide innovators in every field." Now with a new preface and a discussion guide, and a foreword by Harvard Business School professor Teresa Amabile, *The Medici Effect* is a timeless classic that will help you reach your innovative peak. #1 NEW YORK TIMES BESTSELLER • OPRAH'S BOOK CLUB PICK • "An instant American classic and almost certainly the keynote nonfiction book of the American century thus far."—Dwight Garner, *The New York Times* The Pulitzer Prize–winning, bestselling author of *The Warmth of Other Suns* examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions. #1 NONFICTION BOOK OF THE YEAR: Time ONE OF THE BEST BOOKS OF THE YEAR: The

The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not.” In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched, and beautifully written narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people’s lives and behavior and the nation’s fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball’s Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their outcasting of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves

against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Original and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

There will be times

when you walk into a room and no one there is quite like you. There are many reasons to feel different. Maybe it's how you look or talk, or where you're from; maybe it's what you eat, or something just as random. It's not easy to take those first steps into a place where nobody really knows you yet, but somehow you do it. Jacqueline Woodson's lyrical text and Rafael López's dazzling art reminds us that we all feel like outsiders sometimes—and how brave it is that we go forth anyway.
