Cheng & Tsui's best-loved Chinese textbook series is new, revised, and better than ever! An holistic and integrated approach to Mandarin Chinese. This first book in the Chinese Characters for HSK series of books covers all characters in level 1 of the HSK test, 174 in total. We learn Chinese vocabulary more easily in the context of a story. Learning Chinese The Easy Way Level 1 (Simplified Characters) contains 3 stories: Two Men and The Bear (Readers should read this story first) The Wind and The Sun The Fox and The Goat This book is about the story, The Wind and The Sun (Simplified Characters). Each Chinese character, after going through several thousand years of evolution, is like an abstract piece

of art. To remember a Chinese Character, it's essential to understand the artists' reasoning behind it. When a Chinese character is meaningfully explained and understood, it is retained much longer. The books in the series present and explain pieces of each character through illustrations, reasons behind it, stories, or the easiest way to remember the writing/sound, to help readers understand and remember the Chinese characters easily. Learning Chinese The Easy Way (Simplified Characters) Level 1 and Level 2 books are a huge help for beginners or experienced learners to learn and remember Chinese characters. After studying through this book, you will be able to remember and read the famous fable, The Wind and The Sun, in Chinese to your children, students, friends, and colleagues! They all will be amazed! For the first course in the beginning Chinese sequence. For learning Mandarin Chinese. Recognizing that the world is becoming increasingly interlinked and globalized, the goal of the Chinese Link project is to integrate the "5Cs" principles of the National Standards for Foreign Language Education - Communication, Cultures, Comparisons, Connections, and Communities - throughout the program. By incorporating the "5Cs," the 2nd edition of Beginning Chinese, Simplified Character Version, Level 1/Part 1 provides a much-needed new approach for the teaching and learning of Chinese language in the 21st century. The program aims to help beginners develop their communicative competence in the four basic skills of listening, speaking, reading, and writing, while gaining competence in Chinese culture, exercising their ability to compare aspects of different cultures, making connections to their daily life, and building links among communities. Chinese Link, 2nd Edition, is available in two volumes (Level 1/Part 1 and Level 1/Part 2) in both traditional and simplified character editions. Access resources to accompany Chinese Link: Beginning Chinese, Level 1: Parts 1 and 2, 2nd Edition. Learning Chinese can be frustrating and difficult, partly because it's very different from European languages. Following a teacher, textbook or language course is not enough. They show you the characters, words and grammar you need to become proficient in Chinese, but they don't teach you how to learn them! Regardless of what program you're in (if any), you need to take responsibility for your own learning. If you don't, you will miss many important things that aren't included in the course you're taking. If you study on your own, you need to be even more aware of what you need to do, what you're doing at the moment and the difference between them. Here are some of the questions I have asked and have since been asked many times by students: How do I learn characters efficiently? How do I get the most out of my course or teacher? Which are the best learning tools and resources? How can I become fluent in Mandarin? How can I improve my pronunciation? How do I learn successfully on my own? How can I motivate myself to study more? How can I fit learning Chinese into a busy schedule? The answers I've found to these questions and many others form the core of this book. It took eight years of learning, researching, teaching and writing to figure these things out. Not everybody has the time to do that! I can't go back in time and help myself learn in a better way, but I can help you! This book is meant for normal students and independent language learners alike. While it covers all major areas of learning, you won't learn Chinese just by reading this book. It's like when someone on TV teaches you how to cook: you won't get to eat the delicious dish just by watching the program; you have to do the cooking yourself. That's true for this book as well. When you apply what you learn, it will boost your learning, making every hour you spend count for more, but you still have to do the learning yourself. This is what a few readers have said about the book: "The book had me nodding at a heap of things I'd learnt the hard way, wishing I knew them when I started, as well as highlighting areas that I'm currently missing in my study." - Geoff van der Meer, VP engineering "This publication is like a bible for anyone serious about Chinese proficiency. It's easy for anyone to read and written with scientific precision." - Zachary Danz, foreign teacher, children's theatre artist About me I started learning Chinese when I was 23 (that's more than eight years ago now) and have since studied in many different situations, including serious immersion programs abroad, high-intensity programs in Sweden, online courses, as well as on the side while working or studying other things. I have also successfully used my Chinese in a graduate program for teaching Chinese as a second language, taught entirely in Chinese mostly for native speakers (the Graduate Institute for Teaching Chinese as a Second Language at National Taiwan Normal University). All these parts have contributed to my website, Hacking Chinese, where I write regularly about how to learn Mandarin. The Character Book provides the Chinese characters for the core vocabulary in every lesson. It shows the following for each character: 1. Character with its stroke order indicated by numbers 2. Traditional & Simplified forms of the character 3. Pinyin pronunciation, grammatical usage, and sample sentences or phrases 4. Stroke order illustrated by writing the character progressively 5. Radical of the character with its Pinyin pronunciation and meaning 6. Ghosted images for students to trace over and dotted graph lines to aid students' practice Blank boxes are also included for students to practice writing the character. As a handy reference, three types of indices are provided in the Character Book: (1) By number of strokes; (2) By Lesson number; (3) Alphabetic by Pinyin. "Ideal for: High school, college and adult learners with no prior knowledge of Chinese. This acclaimed, bestselling series is successful because it integrates all four language skills-listening, speaking, reading, and writing. Related compounds and phrases are given to assist in vocabulary building. Three indexes at the back allow the characters to be looked up by their English meanings, hanyu pinyin pronunciations, or radicals. Extra practice sheets are also provided. This Chinese character book contains: Step-by-step stroke order diagrams show you how to write each character. Special boxes with grid lines help you practice writing them correctly.
