Gray Apr 10 2022 A dense black cloud boiled up in the southeastern sky. It rose high and fast, like a time-lapse movie of the birth of a thunderhead. But it was no rain cloud. Wholly black, it reached up and up until it loomed over her, blocking out the sun. Somehow, she knew, it was Death coming for her. Pre-med student Coral is on vacation in Idaho when something terrible happens. The black cloud is followed by a wildfire and searing heat that lasts for days. She survives deep in a cave but emerges days later to find the world transformed, with blackened trees, an ash-filled sky, and no living creatures stirring--except for her. So begins her desperate journey: to find water, and food, and other survivors...and the answer to the mystery of what happened. Gray I is the first novel in a series.

Rough Ideas Aug 02 2021 A collection of essays on music and life by the famed classical pianist and composer Stephen Hough is one of the world's leading pianists, winning global acclaim and numerous awards, both for his concerts and his recordings. He is also a writer, composer, and painter, and has been described by The Economist as one of "Twenty

Living Polymaths." Hough writes informally and engagingly about music and the life of a musician, from the broader aspects of what it is to walk out onto a stage or to make a recording, to specialist tips from deep inside the practice room: how to trill, how to pedal, how to practice. He also writes vividly about people he's known, places he's traveled to, books he's read, paintings he's seen; and he touches on more controversial subjects, such as assisted suicide and abortion. Even religion is there—the possibility of the existence of God, problems with some biblical texts, and the challenges involved in being a gay Catholic. *Rough Ideas* is an illuminating, constantly surprising introduction to the life and mind of one of our great cultural figures.

Janey the Vet Nov 05 2021 'Janey is like a whirlwind of selflessness. A beautiful spirit in a beautiful country doing a beautiful thing. I encourage my children to be more 'Janey'. With more positive spirits like Janey, the world would be a better place.' - Ben Fogle In 2014 and in her mid-twenties, Janey Lowes had been a vet for just two years when she left her home in County Durham and went travelling. Visiting Sri Lanka, she was horrified to see the state of so many of the island's dogs, in particular the three million strays. Over 5,000 miles from home, Janey decided there and then that she was going to move to the island indefinitely and do everything within her power to help them. She raised £10,000 to get started, setting up a charity called WECare Worldwide, and

began work. Frightened, determined and excited all at the same time, she found a local who was willing to work with her and began scouring the streets for dogs in need. Some she patched up as best she could at the roadside, others she brought back and treated in a make-shift surgery she had cobbled together in her new home. With very little equipment, she and her small team came up with new and ingenious ways to treat the animals. In this highly inspiring and heartfelt book full of challenges and adventure, Janey introduces us to her world and the tireless work she carries out. As she says, 'I feel as though all these dogs are my dogs and I have a responsibility to them.' In it, we meet many of the colourful characters who have come to offer help, along with innumerable street dogs who have suffered all sorts of trauma and injury, only to be scooped up by Janey and her team and saved.

The Oracle Paradox Apr 29 2021 A techno-thriller novel of the near future when a powerful Artificial Intelligence called Oracle identifies individuals who pose a significant risk to the stability of our society, or who have a high probability of posing such a risk in the future, and sends assassins to kill them. Oracle knows each of us so well, better than we know ourselves, that it is able to determine who might become the next Hitler or Stalin long before that person even has an inkling of such a future. The main character is Henry Porembski, who becomes one of Oracle's assassins when he is recruited after his wife and daughter are killed in a terrorist attack. When he is sent to kill a young girl, the same age as his daughter, he turns against Oracle and vows to protect the girl. He wonders, though: if Oracle knows us so well, why would it send him to kill a girl it had to know he would not kill? And could it really predict how a little girl would turn out as an adult? It all comes to a tense conclusion after Henry

learns that his mission to kill the girl was really to set in motion a series of events intended to bring about the downfall of Oracle...because Oracle has determined that it, itself, poses a threat to the human civilization, and needs to be eliminated.
