These proceedings gather outstanding papers presented at the China SAE Congress 2021, held on Oct. 19-21, Shanghai, China. Featuring contributions mainly from China, the biggest carmaker as well as most dynamic car market in the world, the book covers a wide range of automotive-related topics and the latest technical advances in the industry. Many of the approaches in the book will help technicians to solve practical problems that affect their daily work. In addition, the book offers valuable technical support to engineers, researchers and postgraduate students in the field of automotive engineering. "Report of the Dominion fishery commission on the fisheries of the province of Ontario, 1893", issued as an addendum to vol. 26, no. 7. The World Health Report 2012, the biannual flagship report of the World Health Organization, focuses for the first time in its history on the theme of research for better health. Decisions on healthcare are still made without a solid grounding in research evidence, and an impetus is required for this state of affairs to change. Aimed at ministers of health, the report provides new ideas, innovative thinking, and pragmatic advice on how to strengthen health research systems. WHO and PLoS have launched an initiative to encourage researchers to complement and substantiate the key messages in World Health Report 2012 by creating a special WHO/PLoS Collection. PLoS invited the submission of papers, especially from low- and middle-income countries, on topics related to strengthening of key functions and components of national health research systems. The World Health Report 2012 focuses on eight specific areas, discussed in the editorial, within the theme of 'No Health Without Research.' We highlight below some examples of articles previously published in PLoS journals in these specific areas of interest. Now iMedPub brings this collection to you within a book. Contains abstracts of professional and technical papers. Since its creation in 1884, Engineering Index has covered virtually every major engineering innovation from around the world. It serves as the historical record of virtually every major engineering innovation of the 20th century. Recent content is a vital resource for current awareness, new production information, technological forecasting and competitive intelligence. The world's most comprehensive interdisciplinary engineering database, Engineering Index contains over 10.7 million records. Each year, over 500,000 new abstracts are added from over 5,000 scholarly journals, trade magazines, and conference proceedings.
