The boy follows his family and all his neighbours in a long line, as they trudge through the sands and hills to escape the bombs that have destroyed their homes. But all Sami can think of is his pet pigeons - will they escape too? When they reach a refugee camp and are safe at last, everyone settles into the tent city. But though the children start to play and go to school again, Sami can't join in. When he is given paper and paint, all he can do is smear his painting with black. He can't forget his birds and what his family has left behind. One day a canary, a dove, and a rose finch fly into the camp. They flutter around Sami and settle on his outstretched arms. For Sami it is one step in a long healing process at last. A gentle yet moving story of refugees of the Syrian civil war, *My Beautiful Birds* illuminates the ongoing crisis as it affects its children. It shows the reality of the refugee camps, where people attempt to pick up their lives and carry on. And it reveals the hope of generations of people as they struggle to redefine home. The inspiration behind hit family drama *The Durrells*. Part of the Macmillan Collector's Library; a series of stunning, clothbound, pocket sized classics with gold foiled edges and ribbon markers. With snakes, scorpions, toads, owls and geckos competing for space with one bookworm brother and another who's gun-

mad, as well as an obsessive sister, young Gerald has an awful lot of natural history to observe. This richly detailed, informative and riotously funny memoir of eccentric family life is a twentieth-century classic. *My Bird and My Family Tree* written by Angelique Pesce is a story about a young boy who catches a wild bird. The story uses the analogy of a bird in captivity to tackle difficult topics like war and genocide for its young readers. In the end the young boy has to make a decision. Does he keep the bird or set it free? The author of the memoir *Refuge* offers a meditation on the meaning of a strange legacy that her mother left her--three shelves of the elder woman's "journals," all discovered by the author after her mother's death to be empty. Day of the Dead is a holiday when families celebrate their loved ones who have died. Learn all about the customs of this holiday with text feature questions. Everyone, including Margaret herself, is oblivious to the secrets that threaten to be uncovered by a visiting American relative who is determined to excavate the O'Day's family history. How far will Margaret go in order to bury the truth? *Family Skeleton* examines the dark heart of a family that has for generations been engaged in dark business. You can't dig a grave without disturbing the smooth surface of the ground. Deftly woven with elegant wit and with compassion, this dark comedy is about what you might unearth if you dig deep enough. *** "Carmel Bird is a literary artist to her fingertips...She writes prose that has the precision of poetry and that uncanny quality poetry has of making the inner life speak." -- Peter Craven *** Carmel Bird is an established Australian author of over 20 books. She has been three-times shortlisted for the Miles Franklin Award. [Subject: Fiction] Focusing on families and their shared traits makes bird identification easier than ever. This guide takes readers beyond merely identifying birds to understanding them. Many birders can tell the difference between a White-eyed and Bell's Vireo but cannot begin to describe a vireo and what distinguishes members of this family from warblers or flycatchers. The "species by species" approach makes it difficult to appreciate birds for what they are: members of well-organized groupings united by common traits. Putting the focus on families, and their shared characteristics, makes bird identification easier and more meaningful. More than 150 color photos illustrate the 81 bird families of the United States and Canada. A stunningly illustrated look at the mating and parenting lives of the world's birds *Bird Love* looks at the extraordinary range of mating systems in the avian world, exploring all the stages from courtship and nest-building to protecting eggs and raising chicks. It delves into the reasons why some species, such as the wattled jacana, rely on males to do all the childcare, while others, such as cuckoos and honeyguides, dump their eggs in the nests of others to raise. For some birds, reciprocal promiscuity pays off: both male and female dunnocks will rear the most chicks by mating with as many partners as possible. For others, long-term monogamy is the only way to ensure their offspring survive. The book explores the wide variety of ways birds make sure they find a mate in the first place, including how many male birds employ elaborate tactics to show how sexy they are. Gathering in leks to display to females, they dance, pose, or parade to sell their suitability as a mate. Other birds attract a partner with their building skills: female bowerbirds rate brains above beauty, so males construct elaborate bowers with twig avenues and cleared courtyards to impress them. Looking at the differing levels of parenting skills across species around the world, we see why a tenth of bird species, including the fairy-wrens of Australia, have helpers at the nest who forgo their own reproduction to assist the breeding pair; how brood parasites and their hosts have engaged in evolutionary arms races; and how monogamous pairs share—or relinquish—their responsibilities. Illustrated throughout with beautiful photographs, *Bird Love* is a celebration of the global diversity of avian reproductive strategies. Explains, in simple terms, what a family tree is and how to make one using the enclosed poster and labels. Part of the trilogy of memoirs that inspired the television show *The Durrells in Corfu*: A naturalist's adventures with animals—and humans—on a Greek island. When his family moved to a Greek island, young naturalist Gerald Durrell was able to indulge his passion for wildlife of all sorts as he discovered the new world around him—and the creatures and people who inhabited it.

Indeed, Durrell's years growing up on Corfu would inspire the rest of his life. In addition to his tales of wild animals, Durrell recounts stories about his even wilder family—including his widowed mother, Louisa, and elder siblings Lawrence, Leslie, and Margo—with undeniable wit and humor. The final chapter in Durrell's reflections on his family's time in Greece before the start of World War II, *The Garden of the Gods* is a fascinating look at the childhood of a naturalist who was ahead of his time. This ebook features an illustrated biography of Gerald Durrell including rare photos from the author's estate. 'That nickname . . . ' "Little bird." It wasn't mine. I found out later he gave it to every little girl that came in to be injected. "Little Bird" didn't mean anything. It was a trick. There were thousands of "little birds", just like me, all thinking they were the only one.' As a reporter, Jacques Peretti has spent his life investigating important stories. But there was one story, heard in scattered fragments throughout his childhood, that he never thought to investigate. The story of how his mother survived Auschwitz. In the few last months of the Second World War, thirteen-year-old Alina Peretti, along with her mother and sister, was one of thirteen thousand non-Jewish Poles sent to Auschwitz. Her experiences there cast a shadow over the rest of her life. Now ninety, Alina has been diagnosed with dementia. Together, mother and son begin a race against time to record her memories and preserve her family's story. Along the way, Jacques learns long-hidden secrets about his mother's family. He gains an understanding of his mother through retracing her past, learning more about the woman who would never let him call her 'Mum'. The father of the young actor best known for his performances in "Deadwood" describes his son's congenital heart defect, the young man's theatrical achievements, and the family's effort to find life-saving medical answers. Although Gerd Heinrich, a devoted naturalist, specialized in wasps, Bernd Heinrich tried to distance himself from his "old-fashioned" father, becoming a hybrid: a modern, experimental biologist with a naturalist's sensibilities. In this extraordinary memoir, the award-winning author shares the ways in which his relationship with his father, combined with his unique childhood, molded him into the scientist, and man, he is today. From Gerd's days as a soldier in Europe and the family's daring escape from the Red Army in 1945 to the rustic Maine farm they came to call home, Heinrich relates it all in his trademark style, making science accessible and awe-inspiring. They saved a little bird . . . And in return she saved them too. After a near-fatal fall left Sam Bloom paralysed, no one - not her husband Cameron, nor their three boys - could reach her in the darkest days of her struggle. But everything changed when a new member of the family unexpectedly landed in their lives: an injured magpie chick abandoned after she fell from her nest, whom they named Penguin Bloom. Powerful and tender, Penguin Bloom is a beautifully written account of how compassion, friendship and family can come from unexpected places. Matriarch of the family, Lucilla, has spent a lifetime making the Hampshire estate of Damerosehay a haven for the Eliots. When her favorite grandson, David, falls in love with a woman who belongs to another, Lucilla sees her most cherished ambitions put at risk. But can she persuade David and Nadine to put duty before love? This adult coloring book from Love Coloring has over 54 page patterns and provides hours of stress relief through creative expression. Perfect for fans of Rain Reign, this middle-grade novel The Brave is about a boy with an OCD issue and his move to a reservation to live with his biological mother. Collin can't help himself—he has a unique condition that finds him counting every letter spoken to him. It's a quirk that makes him a prime target for bullies, and a continual frustration to the adults around him, including his father. When Collin asked to leave yet another school, his dad decides to send him to live in Minnesota with the mother he's never met. She is Ojibwe, and lives on a reservation. Collin arrives in Duluth with his loyal dog, Seven, and quickly finds his mom and his new home to be warm, welcoming, and accepting of his condition. Collin's quirk is matched by that of his neighbor, Orenda, a girl who lives mostly in her treehouse and believes she is turning into a butterfly. With Orenda's help, Collin works hard to overcome his challenges. His real test comes when he must step up for his new friend and trust his new family. The inspiration for *The Durrells in Corfu*, a Masterpiece production on public television: A naturalist's account of his childhood on the exotic Greek island. When the Durrells could no longer endure the gray English climate, they did what any sensible family would do: sold their house and relocated to the sun-soaked island of Corfu. As they settled into their new home, hilarious mishaps ensued as a ten-year-old Gerald Durrell pursued his interest in natural history and explored the island's fauna. Soon, toads and tortoises, bats and butterflies—as well as scorpions, geckos, ladybugs, praying mantises, octopuses, pigeons, and gulls—became a common sight in the Durrell villa. Uproarious tales of the island's animals and Durrell's fond reflections on his family bring this delightful memoir to life. Capturing the joyous chaos of growing up in an unconventional household, *My Family and Other Animals* will transport you to a place you won't want to leave. This ebook features an illustrated biography of Gerald Durrell including rare photos from the author's estate. We have a homicide. We've fingerprinted the victim and identified her as your daughter, Angela Noe. These are the words that changed a mother's life forever. How can you be sure it's her? She has a tattoo on her left shoulder that says, *Free Bird*. Carol Noe's safe denial was smashed to pieces. Carol remembered how excited Angela was the day she got the *Free Bird* tattoo that represented her continual search for freedom. But Angela's desire to be free had a dark side. At about age 14, she began to resist authority; she stayed out late or didn't come home at all; and, soon, she was spiraling down a path of addiction.

Despite family, friends, clergy, and therapists reaching out to help Angela, she continued her desperate slide into alcohol, drugs, and eventually a life of prostitution that ended with her tragic murder at the age of nineteen. Farewell, My Free Bird is a mothers story of her daughter, Angela, and her life that was filled with turmoil before she was brutally murdered. However, it is not only a story of tragedy and loss. More importantly, it is a story of forgiveness: forgiveness made possible only by Gods faithfulness to Angela and her family. It is a testimony of how God can bring freedom for the captives; how He can heal the broken-hearted; and how He brings new life out of death. It is natural to wonder, Is God real? Does He answer prayer? Can He be trusted? Does He care about each of us and what were going through? All these questions are answered with a resounding Yes! in the pages of Farewell, My Free Bird. Writer-illustrator Joan Dunning's passionate interest in birds is evident in the vivid details of her jewel-like color plates and dozens of pen-and-ink illustrations. In the inviting style of The Loon, Dunning offers readers a peak inside the nest to observe the path of bird behavior and evolution.
